

FEATURES

- Panel- and DIN-rail mount or open card fixation
- CV/CC: constant voltage; constant current limited
- -40°C to +85°C operating temperature ratings
- OVC III rated up to 3000m Altitude
- 2MOPP rating; BF ready
- EN55032 class “B” compliant @ floating load
- 1.5U cabinet space requirements
- 3 years warranty

Open frame: 3.1 x 0.9 x 0.8 inch
 Panel & Din rail mount: 3.2 x 1.0 x 1.1 inch

APPLICATIONS

SAFETY & EMC

DESCRIPTION

RACM15E-K, the cost-effective chameleons among AC/DC power supply series, adheres to different connection and mounting criteria such as open card placement for connection via pre-assembled harness, or IP20-protected enclosures with push-in terminals for direct fixation to mounting plates, as well as for snapping onto DIN rails with 1.5U slotsize. CV/CC regulated output voltages from 3.3 to 30Vdc with overcurrent limited power of 15 Watt are provided under still air convection at -40° to 50°C ambient temperature. International certifications to medical; household; industrial and safety transformer standards ensure simplified integration into applications for use up to 5000m altitude or 3000m at OVC III overvoltage rating requirements. All models meet EN55032 Class “B” EMI guidelines in floating load configurations.
